

FIG. 3a

FIG. 3b

Predicted Patterns of Center Rod

FIG. 4 is a schematic diagram of a device 10a in a perspective view. The device 10a includes a housing 12a and a display 40. The housing 12a is connected to the display 40 by a hinge 30a. The hinge 30a is located at the bottom of the housing 12a and the top of the display 40. The display 40 is a flexible display that can be folded back towards the housing 12a. The device 10a is shown in a partially folded state. The housing 12a is on the left and the display 40 is on the right. The hinge 30a is in the middle. The display 40 is shown with dashed lines to indicate its folded position. The device 10a is shown in a perspective view from the front. The housing 12a has a top edge 10a and a bottom edge 25. The display 40 has a top edge 35 and a bottom edge 50. The hinge 30a is located between the top edge 35 of the display 40 and the bottom edge 25 of the housing 12a.
